Quartal Financial Solutions is the market-leading provider of software solutions for fee and commission management. Founded in Zurich (Switzerland) in 1999, and with offices in London (United Kingdom) and Frankfurt (Germany), we sit in the heart of the global financial community and are fully up to speed with latest global regulations and industry trends. Quartal is exclusively focused on complex revenue, expense, fee and commission management and works with leading Asset Managers, Banks, Brokers, Custodians, Fund Administrators, Insurance Companies and Transfer Agents worldwide.

Client Benefits

Increased Revenues

Reduce or avoid revenue leakage, optimize fee schedules, enforce revenue and discount policies

Reduced Costs

Reduce operational costs, reduce TCO, increase automation, efficiency and STP levels, reduce cost of sales, optimize agreements

Reduced Risks

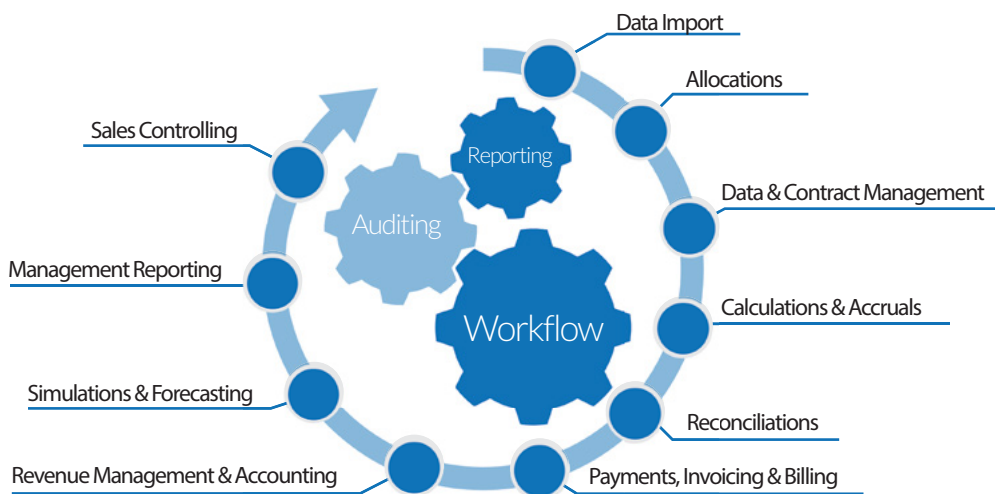

Improve information accuracy, comply with regulations and internal rules, increase STP and workflow control

Improved Transparency

improve reporting and forecasting, get accounting right, enable scenario analysis and modelling

Improved Service Quality

faster and more accurate payments and invoicing, custom reporting, client self-service web portal

Quartal's flagship products – Quartal COMMISSION and Quartal FEE MANAGER – set new technology standards and are proudly serving top brands in the Asset Management, Wealth Management, Securities Servicing, Capital Markets and Insurance industry segments. Quartal's products are cloud-ready and enable the automation of complex calculation, payment and invoicing processes along with sophisticated accrual management, reconciliation, budgeting, expense, contract and workflow management, modelling, forecasting and high-end reporting capabilities.

Quartal COMMISSION

Your top-class solution for commission management and sales controlling

Quartal COMMISSION is a recognized leading software solution to automate your calculation, allocation and reconciliation of distribution commissions and sales cost. The system offers a flexible and innovative solution for commission management with a calculation and processing engine specifically designed and configured for all aspects of commission and retrocession management, allowing for rapid, reliable and transparent data processing, calculations and real-time reporting. As Quartal FEE MANAGER, Quartal COMMISSION benefits from great modularity that allows every single client to have a solution tailored to their specific needs.
